

Motoring enthusiasts take a joyride

The close-knit NTU Motoring Club Alumni Association celebrated the Lunar New Year with a car ride and a photo shoot in a sprawling carpark in Kallang.

"Ren Ri" refers to the seventh day of the Lunar New Year which translates to "everybody's birthday". The NTU Motoring Club Alumni Association (NMC) chose this auspicious day to celebrate their 'ren ri' with a photo shoot session held on 24 February.

Alumni and students drove over to the session at the Kallang Carpark in slightly more than 18 cars. The session was then followed by "Tour de Singapore", a drive around Singapore stretching from Marina South to Tuas South. This year's escapade saw two international students from Germany, who hitched rides from the amicable members.

"Such get-togethers are great! I get to meet new younger members who have a fresh perspective on things.

Meeting with NMC members also allowed us to reminisce about our crazy days in university," said alumni member, Yee Shin Chun, a 2003 Electrical and Electronic Engineering graduate.

NMC family portrait: One for the album!

An annual event since the club inaugurated in 2001, the photo shoot is the joint effort of the alumni association and its student chapter. Definitely not the 'Too Fast, Too Furious', the NMC promotes safe driving and is a homely hub to over 20 alumni. Meeting up frequently to discuss motoring topics and other lifestyle topics, the club is a strong and united one.

Kevin Kwan Ka Wing, a final year student from the School of Civil and Environmental Engineering student said: "I've been in the club for the last two and a half years and I must say that joining the club is great. Not only do we have common interests in cars."

"I've also made many close friends, gathering often not only during NMC events," he added.
